DESCRIPTION

The new SOCOM408-ELR is expertly engineered for .408 CheyTac, .375 CheyTac and .375 EnABELR users by the same team that created SureFire's SOCOM contract-winning suppressors for the world's elite military units. It provides amazing sound attenuation for sniper rifles. Constructed of military-grade titanium and engineered to be the best in lightweight, high-performance suppressors, the SOCOM408-ELR helps maintain the pinpoint accuracy that is critical in precision sniper rifle applications.

The SOCOM408-ELR's noise-canceling baffle design is strictly based on the technically superior SureFire models that won the most extensive and rigorous suppressor trials in USSOCOM history. It provides maximum sound, flash and dust signature reduction along with minimal and consistent point-of-aim, point-of-impact shift when engaging targets out to extreme ranges.

Weighing just 22 ounces, the SOCOM408-ELR may be light, but its robust construction meets our strict durability standards. It is coated with DLC and Cerakote finishes to resist abrasion and corrosion for maximum reliability and long service life, and its Fast-Attach® system allows lightning-fast and rock-solid attachment/removal — hot or cold — no tools required.

Proudly designed, engineered and manufactured in the U.S.A., the SOCOM408-ELR continues the SureFire tradition of producing the finest combat-ready precision rifle suppressors available.

FEATURES

- The ultimate .408 sniper rifle suppressor, the SOCOM408-ELR is made from the highest-quality titanium for combat-ready durability and minimal impact on weapon-handling characteristics
- Compatible with .375 CheyTac and .375 EnABLER
- Front plate, baffles, and lock ring machined from titanium for maximum weight savings
- Excellent accuracy resulting from bore concentricity that exceeds match-grade ammo requirements
- SureFire's superior engineering delivers significant sound, flash, and dust signature reduction
- Combat-proven, patented Fast-Attach® design provides tool-less, rock-solid attachment/detachment in seconds
- Innovative mounting adapters feature multiple bearing surfaces for tight mating with suppressor back section, ensuring a precise, consistent fit
- All SureFire SOCOM suppressors are test fired to ensure accuracy
- Sturdy construction; delivers long service life
- Proudly designed and manufactured in the U.S.A.

SPECIFICATIONS	SOCOM408-ELR	
	BODY COLORS	 
	CALIBER	.408 cal
	CONSTRUCTION	Titanium Alloy
	COATING	DLC and Cerakote™ Finish
	DIAMETER	2.0 in (5.1 cm)
	LENGTH	9.9 in (25.1 cm)
	WEIGHT	22.0 oz (623 g)
